

Regpack Makes Collecting Donations On Your Website EASY!

Collect Donations Right From Your Website

Use our donation template to get up and running in 30 minutes or less!

Make donating as easy as possible for your community, and see an increase in your donations!

Use your existing merchant account to process one-time and recurring donations for your organization.

Save on administrative costs and payment processing!

Why use a donation system and a registration system, when you can use Regpack for both?

Regpack offers more competitive payment processing rates than traditional donation systems.

You can offer one-time and recurring donations in varying amounts to maximize giving campaigns.

Keep more of your donations.
Spend less on processing fees.

Most donation-only platforms **take 5%+ fees on top of processing fees.**

Project settings allow you to pass the processing fee cost to donors, so you can **collect 100% of each donation.**

With Regpack, you pay the **same processing fees you already pay.**

Utilize Regpack for Donor Management!

Communicate with donors via email to provide updates, announce new giving campaigns, and more!

Automate communication including thank you's and payment receipts

Meet your donation goals with Recurring Giving

Allow donors to give on a recurring basis

Monthly, Quarterly, and Annual Options

With Regpack, You'll Get...

- ✓ More control over your donation campaigns
- ✓ The option to collect donations in an existing Regpack project or in a separate project
- ✓ A great way to collect donations quickly and easily on YOUR WEBSITE
- ✓ Allow for one-time and recurring giving
- ✓ Better pricing for collecting and managing donations for your organization
